Admission Test M.Sc. Life Science Informatics

- Send your application via our application system (primuss)
- Afterwards, you may be invited to an admission test if your application meets some of our formal criteria.
- Some information about the test:
    - There will be single choice questions
    - In addition, there will be some calculation/interpretation regarding scientific data or a short essay
    - 50 % of the questions are covering topics from a B.Sc. Informatics study or similar
    - 50 % of the questions are covering topics from a B.Sc. Biology study or similar

- The test can be attended virtual. However, this test will be proctored by an external service provider and as such will incur a service fee, payable at the time of scheduling, using an internationally recognized credit card.
- Once you have started the test, you will have 90 minutes to complete it. The proctor is unable to pause the clock for any reason.
- One on-site test will be offered.
- Time: 90 minutes
- Language: only English

********* **We do not provide any further information on the contents of the test.** *********

We are looking forward to welcoming you at Deggendorf Institute of Technology, Germany. And we would be happy to encourage your motivation in relation to a scientific study with the highest academic standards.

Kind regards

Your admission team
