DigiHealthDay™ Special Guest Lecture: Digital Health In Germany & USA

June 14, Monday, 2021, 14:00-14:45 (CEST)

ABSTRACT

Telehealth from the US perspective, past, present and future

Telehealth adoption moved at a slow pace for decades until the Covid-19 pandemic struck in early 2020. What was previously usually implemented as an experiment, scaled almost overnight. This talk will describe the foundations laid in place prior to the pandemic, the effect that pandemic has had on telehealth implementation and adoption and the trends/developments we expect to see in the coming years.
